## **Klabe Homes Expands Home and Commercial Improvement/Renovation Division to Serve Southern Delaware, Delaware Coast and Maryland Eastern Shore Communities**

Klabe Homes, the premier custom and semi-custom homebuilder on the Delaware Coast, has expanded its Wilmington-based home and commercial improvement/renovation division to serve Southern Delaware, Delaware Coast and Maryland Eastern Shore communities. Kevin Klabe, founder and owner of Klabe Homes, said that his company's home and commercial improvement/renovation division offers comprehensive services from complete home remodels to small alterations as well remodeling and build-outs of office and retail space.

Mr. Klabe said, "Over the many years we have been building homes at the Delaware beaches, home and business owners have expressed their desire that our home and commercial improvement and renovation services offered in the Wilmington area be made available for their own projects. In response to this need, we recently decided to expand this division into Southern Delaware, the Delaware Coastal communities and Maryland's Eastern Shore."

As a benefit to customers, Mr. Klabe said that his company will take on any project, no matter how small or large, from built-in bookcases to two-story additions. He said that both home and commercial customers will find his company's proven dependability and guaranteed quality craftsmanship to be especially valued assets.

"Completing projects on time, on budget and in accordance with the vision of the client are the hallmarks of both Klabe homebuilding and our home and commercial improvement/renovation division. We will get the job done right the first time and our work will exceed our clients' highest expectations," Mr. Klabe said.

Information regarding home and commercial improvement/renovation projects may be obtained by calling Klabe Homes at (302) 644-1100. Additional information on Klabe Homes is available at their website, [www.klabe.com](http://www.klabe.com).
